THANK YOU

Positive Remark from Diabetes Health Challenges Participations.

Thank you for your seasonal challenges. It helps me and my family keep track of our daily intake of the foods. Helping us be aware of our food intake as to the sugar, salt, calories, protein and other health related substances. All the challenges are easy to keep track of and challenges are self-explanatory of what is expected.

We, as a family of 7 have been happy to participate and at the same time learn about the nutrients we intake. Thank you. Very much appreciated. Fun challenges we have done together as a family

GREAT JOB!

*Hello,
I've greatly enjoyed the past few challenges the Diabetes Program has help for the To'Hajjilee Community.
My family has enjoyed participating and holding ourselves accountable to transform our lifestyle by incorporating more physical activity, water consumption and less soda! Keep up the good work!!
